## WHAT'S DIFFERENT IN THIS YEAR'S BOOK?

Versatility, value and a myriad of exciting new lighting designs.

In 2019, Hubbardton Forge introduces its largest collection of new and innovative product in years.

By popular demand, we have broadened several of our most iconic HF collections. A grand **Circular Cityscape Pendant** delights as it evokes imagery of skyscraper silhouettes. In a much anticipated addition to our **Exos Collection**, the sophisticated **Exos Rectangular Pendant** features dual rectangular shades in two new versatile grey hues—held in place by hand-forged steel arms. Look for new designs, including the **Bow Chandelier** and **Loop Pendant**, that showcase fine detailing and clean tailored lines, suited to a variety of styles and settings.

Continuing to expand our much-heralded outdoor line of products, the **2019 Erlenmeyer Outdoor Collection** has a thick glass flask protected by a sturdy metal cage—a tribute to nautical lanterns found on coastlines throughout New England. The all-new **Loft Outdoor Collection**, brings a pared-down and contemporary large-scale design, with glass cylinders that glow within the open geometric frame. New additions, including both post light and hanging fixtures, enhance existing outdoor collections.

We are excited to introduce a new line of lighting for today's bathrooms—**Hubbardton Forge Reflections**. Designed in Castleton, VT and produced through global resources, these fixtures are offered in Polished Chrome and Brushed Nickel

plated finishes, as well as in a Matte Black finish. Quality control, executed by our uncompromising team on-site in Vermont, ensures that every piece will meet the high standards that you expect from Hubbardton Forge.

**Synchronicity by Hubbardton Forge**, continues to develop boundary-pushing and exquisite lighting designs, featuring glamorous art glass and Crystals by Swarovski®. 2019 offerings include the lighthearted **Stella Chandelier**, the grand-scale **Phoenix Pendant**, and the expansion of our elegant **Luma** and **Solitude** collections.

In addition to new entries for **Vermont Modern by Hubbardton Forge**, we are celebrating our *Interior Design* magazine's Best of the Year honors for the irreverent **Old Sparky**. Continuing to feature locally sourced materials, new technology and the spirit of American contemporary design, we introduce the artfully cool **Knot Pendant** and **Plank Pendants** to the 2019 repertoire.

Driven by design and our commitment to quality, we welcome our 45th year in the lighting industry. We're excited to make it easier than ever to find that perfect fixture—we have brought all of our lines together in this one catalog, and on our digital platforms at [HubbardtonForge.com](http://HubbardtonForge.com). Information on all of our products, from any of our lines is now at your fingertips.

## OUR COMPANY

### :: Driven by Design

It all happens at the Forge, here in Vermont. Our design team brings a diverse set of talents and knowledge to the creation of each piece. Our artisans use skill, metal and heat to make those designs a reality. After more than four decades, we continue to pair tradition with innovation. We're dedicated to bringing you stunning, finely-crafted designs. It's what sets us apart. It's what drives us.

### :: Innovation & Inspiration

Our designers and craftspeople continue to explore ways to improve products and processes using technology. LED is more than just energy-efficient lighting; it's now often part of the sculpture. And in the forge, investment in technology is a top priority. It allows our artisans to continue to deliver the best products to our customers.

### :: From Vermont to You

Quality and tradition are more than just words to us. We believe uncompromising quality to be a hallmark of excellence in our designs, our products, and our customer service. Our staff of 230 in Castleton, Vermont—designers, engineers, artisans, metalcrafters, finishers, assembly, shipping, customer service, and more—recognizes that Quality Control is the responsibility of each employee, at every touchpoint.

### :: Lifetime Limited Warranty

Many companies say they're committed to quality. We back up our commitment. Our best-in-class manufacturing processes keep our customers happy. And, we guarantee our quality with a promise – a Lifetime Limited Warranty for any of our fixtures used in residential settings. We also have a committed and knowledgeable customer service team here in Vermont, ready to assist you by phone or email.

### :: Eco-Conscious Choices

Vermont is the Green Mountain state. We feel it's our duty to keep our mountains green and to extend that commitment well-beyond Vermont's borders. We use eco-friendly manufacturing processes, source domestically and partner locally whenever possible, manufacture using recyclable materials, design with energy efficiency in mind and use innovative technologies to reduce waste.

### :: Custom Projects

The advantages of designing and crafting products domestically, all under one roof, are numerous. The ability to quickly turn around custom requests is critical. Our designers and artisans work together to deliver the custom designs our customers want. Whether it's a modification to an existing product or something totally new, they're here to deliver.

## MAKERS

We work together with talented artisans and local companies, behind the scenes, to develop elements and technologies that enhance many of our products.

### :: AO Glass

**Burlington, VT.** Our friends and neighbor-artisans at AO Glass provide the clear bubble, colored, and threaded glass that give the Link Pendant its pizzazz and customize its look; our Shard Sconce its cracked refractive beauty; and many other dynamic hand-blown glass used in Hubbardton Forge fixtures.

### :: ExactBuilt

**Underhill, VT.** An integral part in our development of cutting edge LED lighting designs including the Zephyr and the Mobius LED Pendants, ExactBuilt's laser-etched acrylic light guides guarantee an even and radiant flow of illumination from the LED light source.

### :: Glass Industries

**Wallingford, CT.** The Glass Industries team is an important creative partner to Hubbardton Forge, helping to create both standard and custom glass elements, for unique fixtures such as the Lily and the Aerial Pendant

### :: LEDdynamics

**Randolph, Vermont.** From the beginning in 2000, the LED Dynamics team has focused on the knowledge, talent and passion necessary to take LED lighting from promise to brilliant reality

### :: Maple Landmark

**Middlebury, Vermont.** Maple Landmark is family-owned a company of 40+ people dedicated to making great hand-crafted wood product in Middlebury, Vermont. They primarily sell to thousands of toy stores, gift shops and catalogs nationwide.

### :: Penn Shadecrafters

**Scranton, PA.** Penn Shadecrafters, Inc. has been making quality shades for lighting since 1974, and has been in partnership with Hubbardton Forge, nearly from its beginnings. Working closely with our design team, they formulate new shade colors and custom wire-framed shades to meet our needs.

### :: Simon Pearce

**Quechee, Vermont.** In the age of bigger, better, faster, the people of Simon Pearce believe simplicity, quality, and artisanship are tenets of a better way of life. From hand-thrown pottery to lead-free crystal glassware made with custom molds and purpose-built furnaces, each handcrafted piece carries a story that lends meaning, authenticity, and grace to every use.

**LIGHT & SWITCH.**  
**FINALLY MADE FOR EACH OTHER.**

What happens when you combine a 6,000-year-old art with leading-edge, touch-sensitive technology? The result is the Hubbardton Forge line by Legrand®, as part of the adorne® collection. Choose your stunning Hubbardton Forge fixtures, then add the ultimate final touch.

Six lustrous metal plates, forged by fire to make adorne's simply elegant switches and outlets a perfect match with Hubbardton Forge's rich array of metal textures and finishes. It's a partnership forged in the fires of creativity and passion.

UNLIT

LIT

**OPAL GLASS**

Our most popular glass choice. A neutral flat white when unlit, Opal radiates the warmth of the inner bulb when lit.

UNLIT

LIT

**NEW OPALINE GLASS**

Our new hand-blown Opaline Glass, possesses elegantly iridescent qualities. This glossy translucent glass lends a sleek and polished presence.

*Available on select items.*

UNLIT

LIT

**PEARL GLASS**

A matte, light cream color when unlit, it glows warm with very unique, delicate patterns of undulating clouds when lit.

UNLIT

LIT

**WATER GLASS**

Thick, wavy patterns, similar to an antique window, reflect the light with a slight sparkle. Water Glass retains the same characteristics when lit or unlit.

*Available on select items.*

UNLIT

LIT

**STONE GLASS**

A transitional glass, Stone has a combination of earthy hues of warm ivory, beige and sand with flecks of grey striations suggesting natural stone when unlit. It takes on a warmer glow when lit.

UNLIT

LIT

**SEEDED CLEAR GLASS**

The encapsulated bubbles in our Seeded Clear Glass veil its interior when unlit, but become alive with highlights when illuminated.

*Available on select items.*

UNLIT

LIT

**SAND GLASS**

Sand Glass's sandblasted surface is a natural beige-white color when both lit and unlit. The even tones of Sand Glass are a warm alternative to Opal. Sand Glass's overall hue most closely matches that of Stone Glass.

*Available on select items.*

UNLIT

LIT

**THICK CLEAR GLASS**

Substantial and hand-blown, our Thick Clear Glass provides a rich aesthetic. The generous glass base captures and diffuses the light, becoming slightly warmer when illuminated.

*Available on select items.*

*variations in color*

**AMBER SWIRL ART GLASS**

Shiny-surfaced Amber Swirl Art Glass is a flowing blend of ivory and light caramel colored glass. It provides a warm glow when lit.

*Available on select items.*

**WHITE ART GLASS**

Shiny-surfaced White Art Glass is a lively blend of swirled cool white tones. It gives off a clean, natural light.

*Available on select items.*

**IVORY ART GLASS**

Shiny-surfaced Ivory Art Glass is a blend of antique ivory and cream colored glass with a warm tone that falls between our White and Amber Swirl Art Glass.

*Available on select items.*

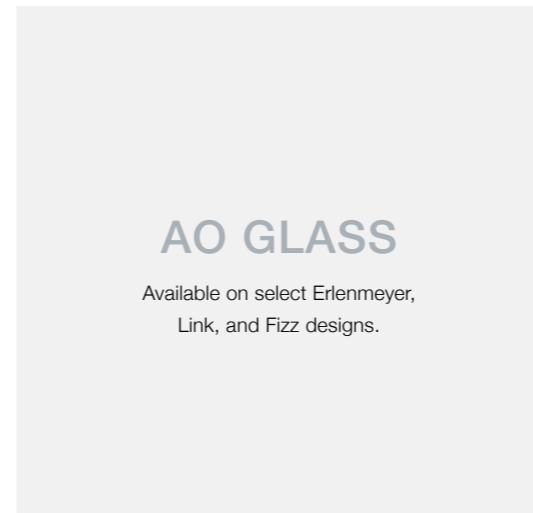

**TOPAZ ART GLASS**

Neutral deep brown when unlit, Topaz Art Glass dramatically transforms into a dynamic blend of rich and warm glowing swirls when lit.

*Available on select items.*

**AO CLEAR THICK GLASS**

**AO BLUE BUBBLE GLASS**

**AO CLEAR BUBBLE GLASS**

**AO GOLD BUBBLE GLASS**

**AO WHITE THREAD GLASS**

*Available on Link only*

Please refer to the Specification Book for details regarding glass options available for each product. Small blemishes and bubbles are inherent in hand-blown glass and are not considered defects. Due to the nature of the glass-making process, the pattern and balance of color in the glass may vary significantly within a piece and from one piece to another. It is the individuality of each piece that is so sought after. We strive to show the most accurate color possible. However, due to printing limitations, representations here may not be exact. Please contact your Hubbardton Forge showroom for actual glass samples. We purchase our glass domestically whenever possible, however much of our glass is sourced internationally.

LIT

UNLIT

#### NATURAL LINEN

A more traditional natural color fabric option with a coarser weave compared to our Natural Anna and Flax fabrics.

LIT

UNLIT

#### FLAX

Our most popular transitional, off-white fabric with the same weave as on our Natural Anna shade.

LIT

UNLIT

#### NATURAL ANNA

A more contemporary, white fabric with a tighter, smoother weave compared to the Natural Linen.

LIT

UNLIT

#### NEW LIGHT GREY

A subtle nuance of grey, warmer in hue when lit. Textural qualities similar to a refined linen weave—beautifully versatile.

LIT

UNLIT

#### NEW MEDIUM GREY

A neutral cool grey, with textural qualities similar to a refined linen weave. Imparts a sophisticated and transitional look.

LIT

UNLIT

#### DOESKIN MICRO-SUEDE

Softer, richer fabrics, our microsuedes are hand-dyed and distressed to create a subtle patterning. The Doeskin has warm brown and tan overtones, especially when lit.

LIT

UNLIT

#### NATURAL CORK

A renewable natural cork veneer which glows dramatically when lit.

LIT

UNLIT

#### SPUN FROST

A white, non-woven fabric imparts a light, contemporary look and feel.

LIT

UNLIT

#### SPUN AMBER

A warm, amber alternative to the Spun Frost non-woven fabric.

We strive to show the most accurate color possible. However, due to printing limitations and bulb temperature variations representations here may not be exact. Please contact your Hubbardton Forge showroom for actual shade samples.

My sorrow, when she's here with me, thinks these dark days of autumn rain are beautiful as days can be;  
she loves the bare, the withered tree; she walks the sodden pasture lane. —Robert Frost

THE  
**SEASONS SPRING**

Raindrops cascading down a trellis were the inspiration behind spring. each glass raindrop captures the light, resulting in an unexpected sparkle.

BOW AND LOOP PENDANTS SHADE COLOR OPTIONS (UNLIT)

Warmest to Coolest Shade Colors with Natural Anna being our most neutral white

We strive to show the most accurate color possible. However, due to printing limitations and bulb temperature variations representations here may not be exact. Please contact your Hubbardton Forge showroom for actual shade samples.

# LOOP

Explore your options—the Loop Pendant offers a finish choice for the canopy, accent finish for the intercrossed loops, and multiple outer shade colors. A white inner shade gracefully diffuses the light while providing a tailored detail.

## SOLSTICE

The beauty is in the details. A graceful surround of artisanal glass entices you to contemplate the romance and mystery of this pendant. Each of the textured glass panels is unique — handmade by Vermont-based glass artisans. On the accompanying sconce, a metal surround focuses the light toward a coordinating artisanal glass disc to create a unique glowing aura of light.

# GAIA

A mystical world of handcrafted steel vines that entwine glistening drops of oval pear-shaped Swarovski Strass crystals. The Gaia is illuminated from above by a single, stem-hung pendant.

## Vermont Modern

In the spirit of iconic American designers including Charles and Ray Eames, George Nelson and Milo Baughman, our mission is to bring the soul, warmth and American spirit back into contemporary design. Vermont Modern features carefully sculpted steel, unique blown glass and locally sourced materials like Vermont maple, combined with the latest in LED technology.
